Compact POS receipt printer, ready for fiscal use in Germany, that's easy to connect with your smart device and print receipts from anywhere.

The TM-m30F fiscal-ready receipt printer includes a certified Technical Security Module (TSE) required by the German Cash Security Ordinance (Kassensicherungsverordnung) and is fully compliant with the Technical Guideline BSI TR-03153. It's a simple, one-step, easy to install receipt printer that's fiscal-ready.

No subscription needed
Unlike other fiscal solutions, the fiscal-ready TM-m30F doesn't even need an internet connection to keep you on the right side of the fiscal law. There are no subscription or monthly payments - you only pay for the fiscal-ready printer to be compliant, with no extra or hidden fees[2].

Stylishly compact
Sleek, stylish and compact, the TM-m30F is one of the smallest stationery printers in the world and can be placed almost anywhere – ideal for any retail environment and especially those with limited space. It comes in black or white and can be used as a top or front access printer. The design is not compromised in any way as the TSE is totally internal.

Easy to install and connect
The printer can be shared by multiple tablets with different interfaces. Print directly from any smart device with ePOS-Print on both iOS and Android systems. Additional Ethernet, Bluetooth, USB and Wi-Fi connectivity are available.

Adaptable and paper-saving
Customise receipts with logos and promotional messages. You can also reduce paper costs and consumption by up to 30% by printing shorter receipts.

KEY FEATURES

- **Fiscal ready**
  The TSE complies with the German Cash Security Ordinance (Kassensicherungsverordnung)
- **All-in-one solution**
  A compact POS receipt printer that's ready for fiscal use in Germany
- **One-off cost**
  No subscriptions or monthly payments
- **Convenient, intuitive technology**
  Simple set-up, mobile pairing and direct printing from web browsers
- **Stylishly compact**
  Its size means it can be placed almost anywhere
